## U. S. AGENT UNDER ARREST

Employee in Department of  
Justice Held at New  
Orleans

## MARKED BILLS FOUND ON PERSON

Told Former Governor of Mexican  
State That \$500 Would Prevent His  
Arrest—Two Others Involved in the  
Alleged Attempt to Blackmail.

NEW ORLEANS, Aug. 2.—A sensation has been caused in Latin-American revolutionary and government circles by the arrest here last night of G. Raymond Matthews, special agent of the United States department of justice; J. L. Mott, his assistant, and Ernesto Fernandez Arteaga, representative here of the Mexican constitutional party, on charges of blackmail.

The arrests resulted from an appeal to the local police by Emmanuel Carrillo Brito, former governor of the Mexican state of Campeche, who stated that he had been approached by one of the three with a copy of a telegram purporting to come from Washington and bearing the signature of Attorney-General McReynolds, ordering Brito's arrest. Brito says he was informed that \$500 would extricate him from the situation. He at once notified detectives, then took a supply of marked bills and met one of the blackmailers last night. The arrest of the three followed and the police say that \$500 in marked bills were found on Matthews's person.

## WESTON ARRIVES AT MINNEAPOLIS

Aged Pedestrian Concludes His 1,500-  
Mile Hike from New York  
City Today.

MINNEAPOLIS, Minn., Aug. 2.—Amid roaring cannon, clanging bells and tooting whistles Edward Payson Weston completed his tramp of more than 1,500 miles from New York City today. By changing his plans after leaving the metropolis the aged pedestrian added 100 miles to the original schedule, and walked a total of 1,546 miles. He started from New York June 2.

## ALLEN RESIGNS AS MAIL CARRIER

Missed But Two Trips a Year in 15 1/2  
Years—West Chesterfield to Dum-  
merston Station.

W. B. Allen, who lives on the West Chesterfield side of the river and has carried the mail from West Chesterfield to Dummerston station since Dec. 8, 1897, handed in his resignation July 15. His successor has not been appointed. During his 15 1/2 years of service he has missed crossing the river an average of only two trips a year. This is an exceptional record when the blizzards and other severe weather conditions are taken into consideration.

Formerly Mr. Allen had to make only one trip each day, but two trips are required at the present time. On Feb. 8, 1908, he lost a valuable horse, harness and sleigh in the river while making one of his trips. He crossed safely in the morning, but at night the ice gave way and the horse was drowned.

## WILSON VICTIM OF PICKPOCKETS

Mexican Ambassador Relieved of Wal-  
let Containing Money and Valua-  
ble Papers at New York.

NEW YORK, Aug. 2.—Henry Lane Wilson, United States ambassador to Mexico, was the victim of pickpockets who secured a wallet containing \$228 together with valuable papers and official memoranda while the ambassador was enroute to the Pennsylvania station yesterday. There is no intimation that the work was that of anyone trying to seek secret papers in the ambassador's possession, and Mr. Wilson stated this morning that the stolen wallet contained no official documents.

Ambassador Wilson arrived in New York from Washington yesterday afternoon and after luncheon started for the train with two women of his acquaintance. A large crowd pressed around the gates and scrambled for the train and not until after bidding his friends good-bye did Mr. Wilson discover his loss.

The matter was brought to the attention of headquarters detectives this morning.

## THE WEATHER.

Fair Tonight and Sunday Predicted by  
the Experts at Washington.

WASHINGTON, Aug. 2.—The weather forecast for the next 24 hours is as follows: Generally fair tonight and Sunday with light westerly winds.

## NO PRESSURE FROM EUROPE

Powers Not Pressing United  
States for Action in  
Mexico

## HOUSE ASKED TO DROP INQUIRY

Ambassador Wilson's Views Are  
Known to be at Variance With  
Those of the President — Contradic-  
tory Reports.

WASHINGTON, Aug. 2.—Developments in the Mexican situation here yesterday were confined to efforts on the part of the administration to prevent unnecessary agitation over the Secretary Bryan promptly denied the Secretary is informed, both the federal and constitutionalists are complying with the desire of the American government for the protection of foreigners and their property, and there is a hopeful feeling manifest in official circles that efforts of influential Mexicans to bring about peace may be successful.

In the meantime President Wilson and his advisers are opposed to any attempt to force the American government into any hasty declaration of policy. Secretary Bryan promptly denied the Secretary is informed, both the federal and constitutionalists are complying with the desire of the American government for the protection of foreigners and their property, and there is a hopeful feeling manifest in official circles that efforts of influential Mexicans to bring about peace may be successful.

The President himself, it is known that the only documents from foreign powers to the United States on the subject this morning that the stolen wallet contained no official documents.

Ambassador Wilson arrived in New York from Washington yesterday afternoon and after luncheon started for the train with two women of his acquaintance. A large crowd pressed around the gates and scrambled for the train and not until after bidding his friends good-bye did Mr. Wilson discover his loss.

The matter was brought to the attention of headquarters detectives this morning.

Mr. Mitchell said that he had no intention of resigning as collector of the port to run on the fusion ticket. If elected, he said, he probably would keep his present office until the end of the year to enable him to carry out changes in methods and organization.

District Attorney Whitman was recognized in Brattleboro yesterday afternoon, and today's efforts have been made here and in New York to locate him with a view to ascertaining whether he will accept the fusion nomination for district attorney and, if not, whether he will run independently for mayor, against Mitchell.

## NEW YORK TRAIN SCHEDULE ANNOUNCED

Will Leave Brattleboro 7 a. m., Reach-  
ing New York 12:10—Return 5:02.  
Reaching Here 10:15.

The Boston & Maine railroad announces today the official schedule for the Connecticut River Special, the train that will run between Brattleboro and New York, beginning Monday, Aug. 11. It is as follows:

Northbound it will leave New York 5:02 p. m., arriving at Springfield 8:19 p. m., at Greenfield 9:24 p. m., and at Brattleboro 10:15 p. m.

Returning, it will leave Brattleboro 7 a. m., arriving at Greenfield 7:48 a. m., at Springfield 8:58 a. m., and at New York 12:10, noon.

## SPECIAL NOTICES

LARGE MANUFACTURING PLANT wants wood-working machine hands. Must be married men. Steady and permanent position. They have erected a group of detached modern houses for rental at reasonable rates. Address 82, Reformer office. 129-131

## FULL FUSION TICKET NOW IN NOMINATION

John P. Mitchell Named for Mayor of  
New York With Whitman  
as District Attorney.

NEW YORK, Aug. 2.—Republicans, Progressives and independents, as represented by a fusion committee of 107 members, agreed yesterday upon John Parroy Mitchell, collector of customs of the port of New York, as a candidate for mayor. The Democratic candidate has not yet been named, but Mayor Gaynor is understood to be a candidate for re-nomination.

The agreement of the fusionists was not reached until after an all-night struggle, during which the committee took nine ballots, on the first of which Mitchell led by slight margins over Dist. Atty. Charles S. Whitman and Borough President George McAneny of Manhattan. On the final vote Mitchell received 45 votes and Whitman 43, the McAneny forces breaking up and dividing their forces between the two leaders. The nomination of Mitchell afterward was made unanimous. Whitman was renominated for district attorney; McAneny for president of the board of aldermen and W. A. Frenckergast for controller.

Mitchell, elected president of the board of aldermen on the Democratic ticket at the last election, was recently appointed by President Wilson as collector of customs at New York, which country has been enjoying a period of unclouded prosperity and quiet since his retirement. Department officials still supposed the exile was living quietly in the Canary Islands until a cablegram came yesterday announcing his reentrance into the country of his birth at the head of an armed force, while various uprisings in his behalf were reported from different points in Venezuela. He was said to be at Coro.

From the legation at Caracas the state department at Washington was informed of uprisings in the state of Tachira, at Coro and Masuro. Telegraphic communication between the capital and the disturbed points was interrupted, but the Venezuelan foreign office claimed that the revolutionists had been defeated by state troops at all points. The president had been granted dictatorial powers. It was said, and men were being impressed for military service.

The United States government is represented in Venezuela at present only by a legation clerk, Richard J. Biggs, minister Northcott has resigned and quit his post, and Secretary Caffery is now in Washington attached to the Latin-American bureau. It was announced that a secretary would be rushed to Caracas immediately, to be followed by a regularly accredited minister as soon as one could be appointed and confirmed.

The state department at Washington yesterday called upon the navy department for a warship to look after American interests in Venezuelan waters, and the gunboat Des Moines, now at Brunswick, Ga., was ordered to make the cruise. It is calculated that the gunboat can make the run to Laguaira, the nearest port to Caracas, in about six days.

## FUNERAL OF MRS. CLUNE.

Services in Roman Catholic Church by  
Rev. Father B. W. McMahon.

The funeral of Mrs. Patrick Clune of East Putney was held this morning at 9:30 o'clock in St. Michael's Roman Catholic church, Rev. Father Bernard W. McMahon conducting the service. The burial took place in the Roman Catholic cemetery. The bearers were Maurice, John and Thomas Welch, cousins of Mrs. Clune, and John, Daniel and Martin Murphy, nephews. Among those from out of town who attended were Mrs. James Blake of Bellows Falls, Daniel Murphy of Boston and Mrs. Anna Callahan and two daughters of Ashuelot, N. H. The floral tributes were many and beautiful.

## HIS 70TH BIRTHDAY.

Robert T. Lincoln Celebrates the Event  
in Manchester, Vt.

MANCHESTER, Vt., Aug. 2.—Robert T. Lincoln entertained a number of friends and relatives at dinner last evening at Hilldene on the occasion of his 70th birthday. The guests included Horace G. Young and George H. Thacker of Albany and Robert M. Janney of Philadelphia. Mr. Lincoln at 70 is hale and hearty and plays his round of golf each afternoon.

With apparatus of his own invention an Indiana University scientist has successfully photographed sound waves.

## GUNBOAT TO LAGUAIRA

Protection for American Interests in Venezuelan  
Waters

## DIPLOMATIC POSTS TO BE FILLED AT ONCE

So That United States Will Be in Po-  
sition to Keep Watch of Former  
President Castro's Revolution—Sur-  
prise at His Return from Exile.

WASHINGTON, Aug. 2.—News of the appearance in Venezuela of ex-President Cipriano Castro after his five years of exile, created something of a sensation at the state department yesterday. For the past five years the department has been keeping Castro under surveillance to prevent him from returning to Venezuela, which country has been enjoying a period of unclouded prosperity and quiet since his retirement. Department officials still supposed the exile was living quietly in the Canary Islands until a cablegram came yesterday announcing his reentrance into the country of his birth at the head of an armed force, while various uprisings in his behalf were reported from different points in Venezuela. He was said to be at Coro.

From the legation at Caracas the state department at Washington was informed of uprisings in the state of Tachira, at Coro and Masuro. Telegraphic communication between the capital and the disturbed points was interrupted, but the Venezuelan foreign office claimed that the revolutionists had been defeated by state troops at all points. The president had been granted dictatorial powers. It was said, and men were being impressed for military service.

The United States government is represented in Venezuela at present only by a legation clerk, Richard J. Biggs, minister Northcott has resigned and quit his post, and Secretary Caffery is now in Washington attached to the Latin-American bureau. It was announced that a secretary would be rushed to Caracas immediately, to be followed by a regularly accredited minister as soon as one could be appointed and confirmed.

The state department at Washington yesterday called upon the navy department for a warship to look after American interests in Venezuelan waters, and the gunboat Des Moines, now at Brunswick, Ga., was ordered to make the cruise. It is calculated that the gunboat can make the run to Laguaira, the nearest port to Caracas, in about six days.

## TENERIFFE, Canary Island, Aug. 2.

Members of the family of Gen. Cipriano Castro, former president of Venezuela, professed surprise at the news published here regarding the ex-dictator's invasion of Venezuela, and declared emphatically that Castro was at present in Germany. However, it is generally believed here that the ex-president has completed all his plans for bringing about Venezuelan revolution and it is even rumored that he is being aided by a certain European power.

CARACAS, Venezuela, Aug. 2.—The mobilization of the government troops in this city was completed last night and an expedition is expected to leave the capital at any moment to encounter the revolutionary invaders. It is believed that its first objective point will be the state of Falcon of which Coro, the capital, is reported to have fallen into the hands of Gen. Castro's adherents.

## TO HEAD STEAMER LINES.

T. E. Byrnes to Have Charge of New  
Haven's Water Craft.

BOSTON, Aug. 2.—Timothy E. Byrnes, former vice president of the New York, New Haven & Hartford railroad, will be head of the steamship lines now maintained by that company. The steamship service of the New Haven is to be entirely reorganized and the department will be administered as independently of the road as possible, the plan being to have it operated like the Boston & Maine railroad, a subsidiary of the New Haven.

## INSURANCE MEN ELECT.

Closing Session of National Conven-  
tion in Burlington Yesterday.

BURLINGTON, Aug. 2.—The closing session of the National Insurance Commissioners' convention was held yesterday afternoon. James R. Young, of North Carolina, was elected president; Willard Bone, of Utah, and John Sherman Darst, of West Virginia, vice-presidents; and P. H. McMaster, of South Carolina, secretary and treasurer.

## KICKED A CHILD IN FIT OF ANGER

Igust Mirimok Fined \$5 and Costs—  
Apple Thrown by Mary Masajada  
Went Through His Window.

Little Mary Masajada, daughter of Clemens Masajada of Elliot street, was throwing small apples last evening shortly after 7 o'clock when one of them went through an open window and struck Igust Mirimok, who was rushing out in the street, struck the child and kicked her in the back. The little girl falling in the gutter.

Men started for Mirimok, but the child's father reached him first and opened two long cuts on his head, which bled profusely. Someone hurriedly summoned Police Chief George Wilson and he arrested Mirimok, who was covered with blood and claimed that the wounds on his head had been made by a stone thrown through the window by the child he had assaulted. The chief was satisfied how the wounds had been made and obtained the names of numerous witnesses to the assault.

Mirimok this morning pleaded guilty in municipal court and was ordered to pay a fine of \$5 and costs of \$9.32. He managed to settle.

The child and Mrs. Lena Fountain, who saw the assault, were witnesses.

## HOOSAC TUNNEL ROAD NOW STANDARD GAUGE

Transformation Completed Today—Ex-  
pected that Broad Gauge Trains  
Will Run Early Next Week.

The work of standardizing the gauge of the Hoosac Tunnel & Wilmington railway has been completed and all that remains to complete the transformation from a narrow gauge is to change the rails and switches along the road. It is expected that this work will be completed today and that broad gauge trains will run the entire length of the road by the first of next week.

## C. V. MEN IN BOSTON.

Visit Believed to Pertain to Resumption  
of Southern New England Work.

BOSTON, Aug. 2.—Significance is attached to a visit here yesterday of J. E. Dalrymple, vice president of the Grand Trunk railway, who arrived in his private car, "Musko," following, as he did, the arrival here of George C. Jones, vice president and general manager of the Central Vermont, and H. R. Safford, chief engineer of the Grand Trunk, Mr. Jones and Mr. Safford came here from White River Junction in the private car "Niagara."

Several days previously it became known that a contractor had been asked by the Grand Trunk to proceed with building the proposed Southern New England railway, between Palmer and Blackstone. Vice Pres. Murdoch said that the contractor had agreed to proceed with the work, provided some settlement is made for damages.

The Palmer-Blackstone branch is approximately 58 miles long, and it is estimated that it will require about 18 months to complete it.

## RUTLAND MAN CAPTAIN.

B. S. Hyland to Lead Vermont National  
Guard Rifle Team.

RUTLAND, Aug. 2.—Capt. B. S. Hyland of Company A, Vermont National guard, has been detailed by Adjutant General Lee S. Tillotson of St. Albans to head the rifle team of 18 men which will represent the Vermont national guard at the national shoot at Camp Perry, O., commencing August 25.

The team will be selected at the close of rifle practice by the regiment at the state encampment at Winslow this month. To be eligible a man must have been enlisted one year and must have done at least 75 per cent of military duty. In addition to the National guard infantry members the following men at Norwich university are eligible: Capt. C. I. Smallman, Signal corps, Lieut. E. L. White and E. L. Munsell and Sergeants P. B. Steyer, First cavalry.

The Vermont team will consist of 12 shooters, a coach, spotter, three alternates and a team captain. The eligible men will practice on the government range at Fort Ethan Allen from August 13 to August 19.

## A Railroad's Good Intentions.

(Barre Times.)

Further evidence of the Boston & Maine railroad's intention to improve the service on its branch lines and subsidiaries in northern New England is given in the announcement that a new passenger train between Brattleboro and New York city will be added, the train to be known as the Connecticut River Special. The service is to be started from Brattleboro instead of Greenfield, Mass., as most of similar service starts, thus giving Brattleboro considerable prestige as a railroad terminus as well as affording increased accommodation to the traveling public in that vicinity. This change was brought about in part through the efforts of the board of trade at Brattleboro, which has been working for some time to secure better railroad service to New York city, and the compliance of the Boston & Maine with the request is an earnest of the road's good intentions toward a town which promises to become one of the best feeders on its northern lines.

## REBELS MAKE STIR IN CHINA

President of New Republic  
Sends Ultimatum to  
City of Fuchow

## FIGHTING BETWEEN TRIBESMEN AT AMOY

Results in Interference by Japanese  
Authorities—Rebels at Wu Sung  
Bombarded by Warships in Har-  
bor.

AMOY, China, Aug. 2.—The city of Fu Chow must rescind its recent resolution to secede from the Chinese Republic with 10 days or an army from Peking will be sent to invade the province of Fo Kien, according to native reports, which declare that Provisional President Yuan Shi Kai has sent an ultimatum to this effect.

A serious situation has been brought about in Amoy by continued clan fighting between the anti-Mongolian Tungun tribesmen and Formosans. The Japanese authorities here interfered and caused the arrest of the Tungun leader. In retaliation the tribesmen took a number of soldiers prisoners and declare they will hold them as hostages for the safety of their leader. A Japanese warship is lying off the disaffected district.

According to a despatch from Shanghai the Wu Sung forts, which are in the hands of rebels, were bombarded at daylight by Chinese warships commanded by Admiral Tseng. The damage was slight. Two cruisers opened fire at a range of five miles and the forts replied.

Now in the fall after haying is the time to cut the bushes and weeds along the farms and roadsides. Wild cherries and shrubs are just the places where the brown tails and cottontails like to breed and then come out in the spring and infest our orchards and desirable trees. Don't wait for the town to come and cut the bushes along the road. Cut them now and burn them up and there will not only be a great saving in the number of insects to fight but the improved appearance will add much to the value of the farm.

If you are trying alfalfa this summer the quicker it is in now the better chance it will have to get well started and better prepared to stand our winter. A good dry piece of ground should have been selected. It should have been mowed and limed. Northern grown seed should have been used and it should be inoculated and put on at the rate of 30 pounds per acre of test seed.

If the weeds get ahead of you in the corn or potatoes get them out now. They rob the crop of large quantities of plantfood and moisture just at the time when the plant needs them most, and one weed saved from going to seed will save fifty from coming up next spring.

## Campaign Expenses.

(Bellows Falls Times.)

Col. Mulhall who has been enlightening congress and the country on the political methods of the National Association of Manufacturers testified before the Senate committee the other day that in his opinion Kittredge Hawkins of Brattleboro was beaten for a re-election as congressman from the second Vermont district because "he did not leave Washington long enough to look after his fences in his own district." If there was one congressman who stayed in Washington and attended to his duties as a legislator, instead of devoting a good part of his time to politics, he merits the good opinion of his constituency. The charge that Mulhall makes that \$300 of the association's money went to Hawkins to help defray campaign expenses is not serious. The ideal condition, of course, would be where every public servant paid all his own campaign expenses, receiving aid from no one. He could then act independent of all influences. However, as long as party organization exists that is a pretty difficult thing to do.

To cool the air far under ground and thereby permit the miners to work longer shifts the owners of a German coal mine compress air at the surface of the ground and pipe it through the workings.

A high speed numbering machine that perforates figures in papers instead of stamping them with ink has been invented.

## CLASSIFIED ADVERTISEMENTS

5 cents a line first insertion; 2 1/2 cents a line each subsequent insertion

**Wanted**  
WANTED—Position on farm. Address "A. B.," Reformer office. 129-130

WANTED—At once, man to work on farm. H. S. Norcross, R. F. D. 3, Brattleboro. 128-4f
